Feedback for 121 online training 2020 PhD post-grads, University of Glasgow

Very useful! I am due to give my first online course in a couple of weeks and the feedback was priceless!

I was in the midst of creating a video and was able to immediately apply the advice I received. I also found this helpful in how I present/conduct myself in virtual meetings and video conferencing is fast becoming the new standard. I thought the session was great.

Cordelia's advice was great and she gave very insightful answers on questions I had about pitching for funding and presenting in an interview session.

voicebusiness uses specially adapted acting techniques coupled with well-established disciplines such as NLP. The training is professional, friendly, and above all, effective.
